**DID YOU KNOW?**

October 9-10

What to do before administering baby or child first aid.

When a child or baby is experiencing a medical crisis, it is important to provide care and seek help as quickly as possible. But because their bodies are still forming, more delicate, and more compact than an adult's, delivering child or baby first aid is different than administering care to an adult. Please review the following steps provided by the American Red Cross, <https://www.redcross.org/take-a-class/first-aid/performing-first-aid/child-baby-first-aid>.

**¿LO SABÍA**

9-10 de octubre

Qué hacer antes de administrar primeros auxilios a bebés o niños.

Cuando un niño o un bebé experimenta una crisis médica, es importante darle atención y buscar ayuda lo antes posible. Pero debido a que sus cuerpos aún se están formando, y son más delicados y más compactos que los de un adulto, dar primeros auxilios a niños o a bebés es distinto a darle atención a un adulto. Revise los siguientes pasos proporcionados en inglés por la Cruz Roja Americana, <https://www.redcross.org/take-a-class/first-aid/performing-first-aid/child-baby-first-aid>.
